ORGANISATION CHART

COMPLETE CABLING PACKAGE

TRP75 Narrow Roller:

Base Size:320mm x 145mm, Weight: 2.75 Kgs

Designed for use in narrow trenches. Lightweight assembly suitable for cables up to 76mm dia. Zinc plated steel frame with large waisted solid aluminum roller running on low friction brushes.

HSP125 Roller- Heavy Duty:

Base Size: 350mm x 230mm, Weight:4.5 Kgs

All Zinc plated heavy duty assembly suitable for cables up to 125mm dia, Steel frame fitted large waisted steel roller running on ball bearings.

HBSP125 Bridge Roller-Heavy Duty:

Base Size:350mm x 230mm, Weight: 4.5 Kgs

Generally as per the HSP125 Roller but with the added facility of being able to place same over a cable up to 90mm already laid in the trench.

COMPLETE CABLING PACKAGE

DR1 Draw Off Roller: Paint Finish

Height:400mm Width: 260mm Length: 250mm
Weight: 13 Kgs

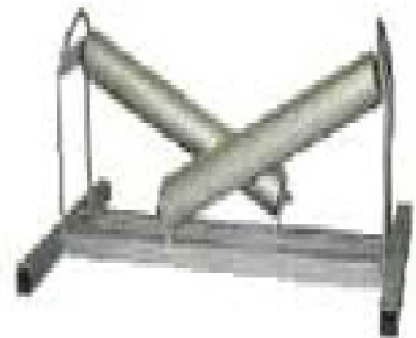

To lead the cable directly from the drum into the trench 75mm diameter steel tube roller on low induction sintered bushes. All mounted to heavy duty angle steel bass.

VR1 Roller Assembly: All Zinc Plated Finish

Height: 360mm Width: 500mm Length:890mm
Weight:17 Kgs

A guide roller in front of the drum which centralizes the cable from drum into trench. Sealed roller bearing fitted in steel roller mounted in heavy duty steel frame

SR5 Suspension Roller: Zinc Plated Finish

Height:404mm Width:300mm Length:210mm
Weight: 3 Kgs

To enable cables to be winched and suspended in high buildings prior to being positioned

DUCT EQUIPMENT

RIGID PVC Duct Rods

PVC Rods available in 2 & 3 meter lengths.

The joint is commonly known as the ferret type which operates on principles of a spring loaded pin engaging into a mating hole when the joint are screwed together the trigger which is flush with body of the joint pressed for quick release. Accessories also available:

- RD1 Duct Rod 3M long x 24 MM O.D.
- RD2 Duct Rod 2M long x 24 MM O.D.
- LM1 Rod Male Leader (to assist rod through duct)
- FF2 Rod female follower
- CUP1 Coupling up set 35mm dia
- CUP2 Coupling up set 48mm dia

DUCT EQUIPMENT

Duct Bushes

Cylindrical bushes with wooden centers drilled and fitted with threaded steel rod, steel and caps and pulling eye each end. Overall length including eye 350mm.

Standard sizes as follows:

CB57 Cylindrical bush 57mm, CB80 Cylindrical bush 80mm

CB86 Cylindrical bush 86mm, CB95 Cylindrical bush 95mm

CB108 Cylindrical bush 108mm, CB150 Cylindrical bush 150mm

Steel Mandrels:

For duct proving Black painted steel 240mm long fitted with threaded steel rod and pulling eye each end to give overall length of 350 mm Sizes 43mm to 95mm diameter available.

Specials available on request.

CABLE LUBRICANTS

We provide a range high quality Lubricants for both power and telecommunication sectors:

POWER – Pail Size 20 Ltr

CD1 Techlube H.D – Developed for large power and also heavy telecommunications cables. High ding factor enables it to remain evenly coated on large diameter cables allowing it to slip into ducts more easily than conventional lubricants.

TELECOMMUNICATION

Pail Size 20 Ltr

LD1 Lubricants – Approved to BT specification MAT 138C Emulsion based with silicone this product is specially formulated with added micro beads to reduce pulling friction by upto 70%.

HYDRAULIC CABLE CUTTER

We provide a range high quality Lubricants for both power and telecommunication sectors:

HHC120 Hydraulic Cutting Head

Designed to cut aluminum, copper and communication cables having a maximum overall diameter of 120mm for use with HHP1 Foot Pump. Other sizes available on request.

HHC085 Hand Operated Hydraulic Cutting Tool

Designed to cut aluminum, copper and communication cables having a maximum overall diameter of 85mm.

HYDRAULIC CRIMPING TOOLS

We provide a range high quality Lubricants for both power and telecommunication sectors:

HOC400H Crimping Tool

A "C" type hand hydraulic tool for crimping copper tube terminals 10 to 400mm² using hexagon dies (13 dies required to cover this range). Head rotates through 180 to allow operation in restricted places.

HOCT 400

Hydraulic head only generally as above used with HHP1 Foot Pump.

HOCT 630 Hydraulic Crimping Head

For crimping copper tube terminals 10-630mm². for use with HHP1 Foot Pump.

HOCT 1000 Hydraulic Crimping Head

For crimping upto 1000mm². for use with HHP1 Foot Pump

FOOT PUMP

HHP1 Hydraulic Foot Pump

New foot operated double speed pump. Developing a maximum pressure of 700 bar. The pump is supplied with 3m long high pressure flexible hose complete with female self lock quick coupler.

Pressure can be with drawn at any time during operation by depressing the release lever. A solid stand gives the pump stability during operation.

MEASURING WHEELS

MW1

Measuring wheel supplied with carrying bag. Low cost measuring wheel with high specification. Adds forwards and subtracts in reverse. Measures along shapes as well as straight lines. 5 digit measuring upto 10,000 meters without resetting.

Simple reset lever to zero. Light weight only 1.5 Kgs

MW2

Mearing wheel c/w stand, break and carry case, 6 digit measuring upto 100,000 meters otherwise as above.
